# **INTERNSHIP ABROAD**

## **WHY DO AN INTERNSHIP ABROAD?**

### **1. Confidence**

Living abroad in a different culture can feel like a totally different world. While this can be a difficult process, one of the rewards is that your self-confidence will continually grow through the period of internship, and you will come back a significantly more confident person.

### **2. Adaptability**

As you grow and learn through the challenges of doing an internship abroad, including living in a new environment with different languages and customs, and as you gain experience in the world of work, you will learn *adaptability*, a skill and an attitude that will serve you throughout your life.

### **3. Cultural Awareness**

Working as an intern in the international job market, you will gain world perspectives each day as you relate to your co-workers. Throughout the course of the program you will gradually gain both global and interpersonal awareness, strengthening your skills in collaboration and communication.

### **4. Language Skills**

Living and working in another country is the perfect way to improve your language skills. An internship provides an ideal opportunity for this as you will be required to communicate with people using other languages every day.

### **5. Work Experience**

Doing an internship abroad will help you gain highly desirable professional skills, giving you an edge while competing in the workforce. This will open the door to a broader range of opportunities, and your resume will stand out above the other applicants because of the global scope of your experience.

## Application Process and Intake Duration

<b>Example of Internship Process Timeline</b>			
<b>Steps</b>	<b>June Intake</b>	<b>August Intake</b>	<b>January Intake</b>
Submit application materials	January	March	August
Pay confirmation payment of 20,000 baht	January	March	August
Online interview	January	March	August
